Safe and Happy Cats

Whether you've just adopted a new cat or kitten, or are considering how best to care for your existing cat, the RSPCA Australia Guide on keeping your cat safe and happy at home can help.

The idea that all cats need to roam outdoors has changed; many owners now provide a safe and suitable environment for their cat at home all day, every day.

Keeping your cat safe and happy at home means providing for all their needs, including many that may previously have been met by being outdoors. Meeting these needs in other ways requires forward thinking and a little imagination and commitment. But you needn't go it alone: we're here to help explain how you and your cat can live at home together in harmony.
